Success.

IN straight business talk this store is a bargain proposition with a heart on its left side and vitality, personality and experience that assure its success.

Fact, the prosperity of this new kind of a store was assured from the moment the doors opened.

Just think, on the third of last March the Weavers' and Manufacturers' department store opened. What has been achieved? Success! In these few short days we have become a factor to be reckoned with; this store has shattered every well-laid scheme of high prices and demonstrated the power of thrift.

This new kind of a store, the practical distributing point of overproductions, samples, mill ends, etc., for the whole country.

Now, with all our low prices and the excitement our announcements stir up, we guarantee our merchandise.

Remember, we are a serious proposition, one that is a permanent structure in the commercial work of New York. And further, even though we are growing like a young bird, this will in no way hamper or affect our great shoe business, either at our 18th St. or any other of our stores.
